

Are You Teaching Geology/ Earth Science?

***Then join the
Earth Science Teachers' Association***

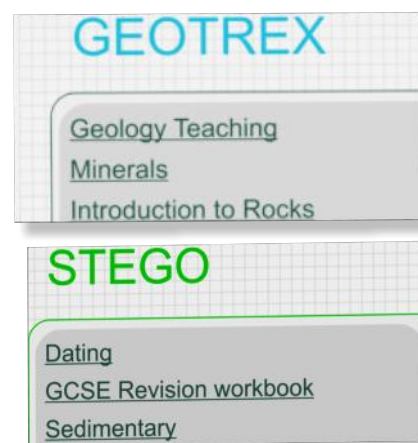

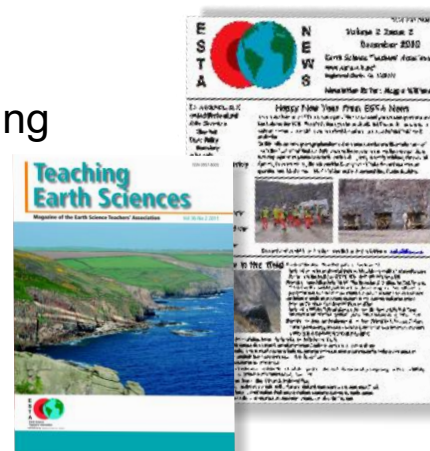

**Earth Science
Teachers' Association**
www.esta-uk.net
Registered Charity No: 1005331

ESTA has been supporting Earth Science education and helping teachers at all levels since 1967.

What can *ESTA* offer you?

Support for your Earth Science and Geology Teaching through:

- Influence on policy decisions affecting Earth Science/Geology education at a national level
- Updates on curriculum development and teaching
- An annual course and conference
- A magazine - *Teaching Earth Sciences*
- A regular newsletter - *ESTA News*
- A mentoring service for new teachers
- A network of fellow members
- Free access to GEOTREX and STEGO
 - wide ranging web-based resources created, tested and used by working teachers
- A dedicated website
- Resources specific to Primary, Secondary, Further and Higher Education
- Benefits from collaboration with organisations such as:
 - Geographical Association
 - Geologists' Association
 - GeoConservationUK
 - British Geological Survey
 - The Geological Society of London

Supporting the teaching of Earth sciences at all levels

What do teachers say?

About the conferences

“Members who were not able to attend the ESTA Conference this year missed a real treat - not only in the Conference as a whole, but in the many and varied Earth-shaking ideas shared by all those who were there.”

“Thank you for such a wonderful weekend. I hope that you understand how important the conference was to teachers and how much we are indebted to you.”

“If only senior management at my school could have any idea that this is the best that INSET can be, and was such good value! I'm sure anyone reading this can relate to experiences of lousy INSET providers who cost the Earth.”

“A full programme of interesting and thought provoking lectures, practical sessions, workshops, discussions and field visits.”

“For me, the afternoon was spent in the company of BGS learning about the UK School seismology project, which I had very little prior knowledge or experience. I soon regretted missing out on a free seismic monitoring station last year (yet another good reason for membership and attendance at conference!)”

Other comments

“Why didn't I join ESTA earlier?” Head of Geology at a Sixth Form Centre

“As the only Geology teacher in the school, ESTA has provided inspirational support and wonderful teaching ideas just when I needed them. Thank you!”
Secondary School Teacher

“An association full of knowledgeable people ready to help the uninitiated.”
Primary School Teacher

ESTA website

The website has back issues of *Teaching Earth Sciences* and over 460 tested resources under thirty different headings, only accessible by ESTA members.
